Printavo Hub — Project Plan & Status

Mint Printworks · July 13, 2026 · One consolidated internal platform replacing 11 separate Printavo-connected apps

● **DONE** built, tested, reviewed ● **YOUR TEST** done, waiting on Tyler to validate ● **PLANNED** agreed, not started

● **TABLED** paused, will return ● **BACKLOG** logged, not scheduled ● **REQUIRED** must happen before go-live

Foundation — Sync, Backup & Reports

● DONE **Printavo sync engine**
Orders, statuses, line items, customers mirrored to our database; syncs every 5 min, self-healing.

● YOUR TEST **Order detail + payments history + Reports API**
Backend done (2017→today payments, legacy Insights formulas). Reports UI + your preset-reports list still to come.

● PLANNED **Complete Printavo backup + scheduled resync**
Full archive of ALL data (beyond the 12-month sync window) on a schedule.

Vendor Orders / Purchasing

● DONE **P1 — Needs-ordering scan**
Live view of items needing purchase, grouped by order.

● DONE **P2 — Cart, vendor pricing, PO builder & PO Log**
SanMar + S&S live pricing, warehouse auto-pick, append-to-PO, locks, admin unlock (PIN).

● DONE **P3 — Push to Printavo + status rules**
Line-item write-backs, PO file attach, status suggestions (staff confirms each).

● YOUR TEST **P4a/b — Electronic vendor ordering**
Submit POs to SanMar / S&S with dry-run preview, PIN gate, kill switch, double-order protection.

● PLANNED **P4c — Tracking dashboard**
Vendor order status/tracking + submission history.

● PLANNED **P4d — First LIVE vendor order**
You + partner, ~July 14. One unit, SanMar. Nothing sends without you.

● PLANNED **P4e — Polish**
Cleanup pass after live-test learnings.

Price Calculator (Breezy Quote port)

● DONE **PC1–PC4 — Full calculator**
Matrices (+CSV import), exact legacy math, 10-col breakdown, vendor price lookup with sale toggle & smart search, PNG export.

Print Queue (Workorder Manager port)

● YOUR TEST **PQ1 — Manual workorder printing**
Status filters, presets, combined print preview with per-order exclude, attachments toggle, packing-slip links.

● YOUR TEST **PQ2 — Bulk status change + queue rules**
Safe bulk moves (stale-order guard), rules with off/ask/auto modes, kill switch (default off).

● YOUR TEST **PQ3a — Auto-print to PrintNode**
Scheduled printing of new workorders + auto status move by decoration type. Verified end-to-end incl. double-print protection. Safe state: off + dry-run. Test with order #22251 only.

● PLANNED **PQ3b — Packing slips & box labels**
Rendered from our own data, no Printavo fetch.

Tabled — Returning Later

● TABLED **Cross-vendor catalog search**
"Navy trucker hat" search across SanMar + S&S with images; built as an API your other app can also use.

Before Going Live

● REQUIRED **Staff login / authentication with roles**
API is currently open inside the workspace. Roles (admin vs granted access) also unlock the analytics hub & per-module permissions.

Next up when you're back: test Auto-Print (PQ3a) with order #22251 — sidebar under Production. Then the live SanMar order (P4d) ~July 14. Testing rule in force: order #22251 only; #19004 never again.

Backlog & Ideas — Logged, Not Scheduled (sequence together when ready)

Internal customer portal
Quick-access per customer: branding colors, popular styles, contacts, assign customer type.

Color catalog / database
Hub-built color DB, reusable as the matching catalog for the Breezy app.

Knowledge base — FAQ, SOPs, reference
Centralized internal docs, structured for AI & platform integrations to use.

External analytics hub
Fireflies, JustCall, Google Analytics/AdWords, Meta, RB2B, EmailAnalytics, ActivTrak, Constant Contact... Admin-only vs granted access.

Sales & follow-up tools
Proactive follow-up reminders, receivables tracking, custom alerts (order value, customer type, new customer).

Preset reports library
Batch of ready-made reports — working from your list.

Maintenance & sidework log
With scheduled reminders; may tie into the task manager.

Outgoing activity log
One audit trail of everything the Hub sends out — what, when, success.

Task management app integration
Fold in your existing task app; explore Printavo tasks sync.

Missive messaging portal
Inbox / messaging inside the Hub via Missive's API.

Public Reorder Portal
Customer-facing reordering, after internal modules settle.
